**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. In view of the terminal disclaimer submitted on June 20, 2005, previous double patenting rejection on claims 1, 3, 5, 6, 35-39, 41-53 and 55-62 is hereby withdrawn.
2. Due to new grounds of rejections, the following rejections are made *non-final*.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 38-62 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claims 38, 52, 58, and 62, applicants recite "[a] die with *non-functional information* deposited upon the die". There is no support for such limitation in the parent application, 09/662,300.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 38-62 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 38, 52, 58, and 62, applicants recite “[a] die with *non-functional information* deposited upon the die”. It is unclear what applicants mean by “non-functional information” as the phrase was never presented or defined in the original disclosure.

7. Claims 56 and 57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 56 recites the limitation “the first paragraph”, “the second paragraph”, and “the column” in lines 3-5. There is insufficient antecedent basis for those limitations in the claim. Also, claim 57 recites the limitation “the first paragraph” in line 2. There is insufficient antecedent basis for this limitation in the claim.

***Allowable Subject Matter***

8. Claims 1-6 and 35-37 are allowed. Kolb (3,626,824) teaches a method for composing pages of printed material suitable for composing newspapers, books and magazines. The reference does not teach or suggest present die with text deposited upon the die using semiconductor processing techniques, the die comprising a *wafer* substrate, first and second paragraphs in contact with the substrate, those paragraphs being aligned in a column.
